

JAYARAM M Mobile App Developer (React Native | iOS | Android)

📞 8277086479 ✉️ marnijayaram0707@gmail.com  LinkedIn  GitHub

PROFESSIONAL SUMMARY

Performance-driven **Mobile App Developer** with 1 year of professional experience in the full software development lifecycle. Specialized in React Native for cross-platform mobile application development on Android and iOS platforms, with a proven track record of **translating intricate UI/UX prototypes** into functional, high-performance mobile screens.. Experienced in implementing AI-driven functionalities including **GPT-4 API** and **AI-IVR** systems.

PROFESSIONAL EXPERIENCE

Revolution Labs Pvt Ltd | Software Engineer (React Native) 03/2025 – Present | Bengaluru, India

- **Cross-Platform Engineering:** Engineered and deployed 3+ production-grade mobile applications for Android and iOS using React Native, ensuring consistent performance across both platforms.
- **UI/UX Implementation:** Built and refined **40+ mobile screens** from high-fidelity **Figma** designs, achieving **100% visual accuracy** and seamless responsive layouts.
- **Core Feature Development:** Spearheaded the creation of 5+ core modules including real-time VoIP Calling, Email, and Calendar synchronization using RESTful APIs..
- **System Capabilities:** Implemented **3+ advanced mobile features** such as **File Uploads, Audio Recording, and Push Notifications**, enhancing user interaction capabilities.
- **Library & Build Management:** Conducted compatibility audits for **10+ third-party libraries** across both OS environments and managed the full **iOS/Android** build and distribution cycle.
- **Performance Optimization:** Optimized **API communication protocols and restructured state management**, significantly enhancing application responsiveness and resolving critical memory leaks for a smoother user experience.
- **Team Collaboration:** Partnered with **3+ backend developers** and designers to deliver end-to-end mobile features within an **Agile** development environment.

PROJECTS

Goyolo / YoloAi (Mobile App)

- **Infrastructure:** Architected a multi-tab navigation system using **React Navigation**, ensuring smooth transitions for **multiple active users**.
- **Data Integration:** Integrated a centralized dashboard that synchronized real-time data, effectively automating manual workflows and reducing user data entry requirements.
- **Communication Systems:** Architected and improved the VoIP Calling module, managing permissions and background states for a production environment.
- **Component Design:** Developed a library of **20+ reusable React Native components** from high-fidelity Figma mockups, standardizing the UI architecture and accelerating the development lifecycle for new features.

Callvarse (Mobile App)

- **Communication Module:** Contributed to the development of primary interaction flows and **streamlined** the storage and retrieval of **Call Logs**.

CORE TECHNICAL SKILLS

Mobile Development : React Native (iOS & Android), App Deployment, Debugging, Figma-to-Code.

State Management & APIs: Redux Toolkit, Axios, REST API Integration.

Languages : JavaScript (ES6+), Python (OOP, Data Structures), HTML5, CSS3.

Tools & Libraries: React Navigation, Firebase, Git, GitHub, Flipper, React Native Debugger.

EDUCATION

- **B.Tech in Computer Science & Engineering** | Presidency University, Bengaluru | **8.01 CGPA** (2020-2024).
- **Pre-University** | Bangalore PU College, Bangalore | **75.66%** (2018-2020).

CERTIFICATES & AWARDS

- Full Stack Web Development (Bharath Intern) 
- Python Full Stack Development 
- National Engineering Olympiad (NEO 4.0) - Award Winner & Campus Ambassador.
