PROFESSIONAL SUMMARY

React Native Developer with 1+ years of experience building scalable Android and iOS applications. Skilled in Redux Toolkit, Firebase, REST APIs, VoIP, and Figma-to-Code development. Experienced in delivering production-ready mobile applications with clean architecture and high-performance UI.

PROFESSIONAL EXPERIENCE

Revolution Labs Pvt Ltd | Software Engineer (React Native)

03/2025 – Present | Bengaluru, India

- Cross-Platform Engineering:** Engineered and deployed 3 production-grade mobile applications for Android and iOS using React Native, ensuring consistent performance across both platforms.
- UI/UX Implementation:** Built and refined **40+ production mobile screens** from Figma, achieving **100% design accuracy** while improving development consistency.
- Core Feature Development:** Spearheaded the creation of 5+ core modules including real-time VoIP Calling, Email, and Calendar synchronization using RESTful APIs.
- System Capabilities:** Implemented **3+ advanced mobile features** such as **File Uploads, Audio Recording, and Push Notifications**, enhancing user interaction capabilities.
- Library & Build Management:** Conducted compatibility audits for **10+ third-party libraries** across both OS environments and managed the full **iOS/Android** build and distribution cycle.
- Performance Optimization:** Optimized **API communication protocols and restructured state management**, significantly enhancing application responsiveness and resolving critical memory leaks for a smoother user experience.
- Team Collaboration:** Partnered with **3+ backend developers** and designers to deliver end-to-end mobile features within an **Agile** development environment.

PROJECTS

AI-Driven Productivity & Communication App | Professional Project

- Infrastructure:** Architected a multi-tab navigation system using **React Navigation**, ensuring smooth transitions for **multiple active users**.
- Data Integration:** Integrated a centralized dashboard that synchronized real-time data, effectively automating manual workflows and reducing user data entry requirements.
- Communication Systems:** Architected and improved the VoIP Calling module, managing permissions and background states for a production environment.
- Component Design:** Developed and standardized 20+ reusable React Native components from high-fidelity Figma designs, accelerating feature development, improving UI consistency, and reducing implementation time by approximately 30%.

Customer Material Return System (Web Development)

10/2023 – 01/2024

Tech Stack -React.js , Firebase

- Designed and implemented a user-friendly interface for customers to view orders and initiate product returns.
- Developed a streamlined system for manufacturers, delivery personnel, and administrators to efficiently manage return requests.

CORE TECHNICAL SKILLS

Mobile Development : React Native, Redux Toolkit, React Navigation, Firebase, Android, iOS, Figma-to-Code.

State Management & APIs: Redux Toolkit, Axios, REST API Integration.

Languages : JavaScript (ES6+), Python (OOP, Data Structures), HTML5, CSS3.

Tools & Libraries: Git, GitHub, Android Studio, Xcode, React Native Debugger.

EDUCATION

- B.Tech in Computer Science & Engineering** | Presidency University, Bengaluru | **8.01 CGPA** (2020-2024).

CERTIFICATES & AWARDS

- Full Stack Web Development (Bharath Intern) 
- Python Full Stack Development
